18th May 2020

SEMICON SEA 2020 GOES VIRTUAL!

Dear Exhibitors, Partners and Guests,

In this current period of uncertainty, with mass gathering continuing to be restricted due to COVID-19, SEMI is unable to proceed with SEMICON Southeast Asia as scheduled on 11-13 August 2020 in MITEC, Kuala Lumpur, Malaysia.

Alternatively, SEMICON SEA will be a virtual tradeshow connecting together the region’s electronics manufacturing supply chain and industry experts with our colleagues.

The experience will begin at the virtual SEMICON West event on 20-23 July. SEA exhibitors can participate in the “SEA Pavilion” within SEMICON West’s detailed, interactive Exhibit Hall, where they will have the opportunity to network and gather insights just like on a physical show floor.

Participants will be able to access the speaker program, virtual exhibitions and networking opportunities at SEMICON West – live and after the event.

Next up, SEMICON SEA from 11 – 21 August will continue the exciting virtual journey of learning and business opportunities, including:

- Technical Webinars comprising of Technology Innovation, Advanced Packaging, Sustainable Manufacturing, Test and Yield Analysis expert know-how.
- Online business matching program to bring together customers and suppliers.
- Inspiring talks on Talent Development and exciting job postings from Corporations.

Visitors will hear from, and interact with, visionaries and executives from across the microelectronics supply chain and its markets. Presentation will feature emerging applications that demand the industry’s design and manufacturing expertise.

Taking SEMICON SEA virtual is part of our commitment to your health and safety. We look forward to meeting with you virtually – without the associated costs and time of travel – and to helping your business and the industry return to growth as quickly as possible.

Our SEMI SEA colleagues will get in touch with you shortly to furnish the details.

Thank you.

Yours Sincerely,

Richard Salsman
CFO & VP, Operations, SEMI

Ng Bee Bee
President, SEMI SEA
